Safety Disconnect and Wireless Probe

Tired of taking multiple trips from the work truck to the meter site? TESCO's Safety Disconnect and Wireless Probe allows you to program meters from the convenience of your work truck.

TESCO's Wireless Optical Probe provides easy, two-way communication between a PC and meter with wireless convenience up to 1200 ft.

COST EFFICIENT: TESCO's Wireless Optical Probe is an affordable way to program and read meters.

EASY TO USE: To operate, simply attach it to a meter and communications with the meter vendor's software can begin. An RF Wireless dongle plugs into USB port on a computer and is paired to the probe. Red and green LEDs indicate communications to and from the meter.

CONVENIENT: Program meters from the convenience of your work truck within 1,200 ft.
