

# Transockets

**TESCO Single & Three-Phase Transockets** offer the flexibility of a single enclosure for current transformer metering and allow mounting of current transformers and a test switch. By combining the meter socket and transformer cabinet, TESCO provides a cost-effective metering solution.

- 4, 5, 6, 8, 10, 11, 13 & 15 terminal meter sockets available, with services up to 600 Amps.
- Suitable for overhead and underground service
- Pre-wired to your specifications, with your choice of current transformers and voltage transformers (if applicable)

**Test switches:**

- 4 through 10 pole configurations available, built to customer specifications for layout, connector options and handle color coding. Available in either plated or un-plated material. Available with and without clear or black Lexan covers.

**Enclosures:**

- 14GA Powder Coated Galvanized Steel (16GA Cover); Aluminum enclosure also available.

**Enclosure dimensions:**

- 24" x 33" x 12" Standard (custom enclosures available)

**Ground Stud:**

- Pem-type stud with lock washer and hex nut.

**Knock-Outs:**

- Four knock-outs (3" x 3.5" x 4"). Three located on the bottom; one located on the back.

**Hub Openings:**

- Two hub openings (4"), with cover plates

**Wiring:**

- To customer specifications.
